Who is the Controller When We Process Your Personal Information?

When we use your information for purposes such as our online services, conducting repairs and maintenance, and conducting certain marketing activities, we act as a Controller. This means that we are acting as the person or organization that decides why we need your Personal Information and how we will process it as a benefit to you as you use our Products.

In many cases, we receive your Personal Information from your dealer or clinician when they ask us to build your customized Product. In these interactions, we act as a Processor on their behalf. This means that we are the person or organization that is performing the processing on behalf of the Controller of your Personal Information.

Either way, we will protect the Personal Information we hold and provide you with the ability to confirm that it is processed in a manner that you expect when you use our Products.

How Do We Collect Your Personal Information?
We collect Personal Information about you when you place an order with your dealer or clinician for any of our Products. We also collect it from you when you register for any of our online services and use our Products. If you use our connected Products and have provided your consent, it is another way we can collect your Personal Information from you or directly from your Product.

**What Information Do We Collect About You?**

When you use our Products or interact with us, we collect information about you that we use for different purposes. These purposes include providing you with the Products you have requested and communicating with you about them. We also use this information to develop our Products and make them better.

We collect the following categories of Personal Information depending on the product or service you use:

- **Identity information**

  Identity information includes your first name, last name, username or similar identifier, date of birth, and gender. We collect identity information when you, your dealer, or your clinician reaches out to us for services, when you make a request, or when you lodge a complaint. In some cases, we receive your identity information from your dealer or clinician when your product order is placed.

- **Contact information**

  Contact information includes your email address, mailing address, and phone numbers. We collect your contact information when you reach out to us for services, to make a request, or to lodge a complaint. In some cases, we receive your contact information from your dealer or clinician when your wheelchair order is placed.

  In most cases, we collect this Personal Information as a processor or business associate of your dealer or clinician; however, there are instances where we act as a controller or non-covered entity health care provider when processing this information, such as with complaint handling, product maintenance, and accounting processes.

- **Measurement information**

  During a client evaluation, we collect your body measurements to provide you with a wheelchair custom fit to your specifications and needs.

  When you are ordering certain seating and positioning products, we conduct pressure point mapping to custom fit your seating and positioning needs.

- **Transaction information**

  Transaction information includes details about your order history, including products, services, and parts, and other details of the Products you have purchased from us. We collect this information to provide you with better customer support and service, such as when you need a new part or technical assistance.
• **Sign-in information**

Before you may enroll to access our software and apps, you or your clinician will need to register for an account with the Product ("User Role"). Personal Information collected in the registration process includes your name and email address. Your User Role is subject to approval by Permobil. Once you have registered and your User Role has been approved, you will receive a username and password.

• **Technical information**

Technical information includes internet protocol (IP) address, your login credentials, browser type and version, time zone setting and location, browser plug-in types and versions, operating system and platform and other technology on the devices you use to access this website and our online products.

• **Usage information**

Usage information includes details about how you use our Products. This includes your seating and positioning regimen when you register for the Virtual Seating Coach. If you use our connected Products and have provided your consent, we collect your usage information from your Product.

• **Health information**

If you have registered for any of our online services, we collect information on behalf of the clinic or health services provider that you have chosen to deliver and maintain our Products, including information about your use of our Products, please see the Our Products section for further information about what type of information related to our Products that we collect.

In conducting business, we will receive and create records containing limited health information. Any health information collected is not combined with data from other Products or used for other purposes without your explicit consent. For example, we will not use your health information to market or advertise our Products to you without your explicit consent.

• **Location information**

Permobil offers location-based products that require your explicit consent prior to activation. To provide these location-based Products, we collect, use, and share precise location data with you, your legal guardian, your dealer, or your clinician with your consent. The information shared includes the real-time geographic location of your wheelchair when the GPS device is activated. You can turn on or off location data collection on your device in the My Permobil smartphone app, on the My Permobil website, by contacting your dealer, or by contacting us.

• **Information from device sensors**

Permobil offers power wheelchairs with sensors that will collect data about your location, wheelchair mileage, battery status, maintenance information, diagnostic data, and service data about the Products that you use and receive from Permobil upon activation. These sensors are inactive at the time you receive your power wheelchair and can be activated at your request. Your dealer can provide you with information on how to activate the device sensor.
Information about your use of our Products is occasionally collected on behalf of your clinic or health services provider to aid you in your specialized treatment. Depending on our Product, you can control what sensor data the device and the apps can use by contacting your dealer or sending an email to privacy@permobil.com.

**How Do We Use Your Information?**

The type of Personal Information that we process depends on which Products that you use. Please refer to the [Our Products](#) section for more specific information regarding what Personal Information is collected by our specific Products and how it is used.

**Legal requirements**

Permobil stores Personal Information to fulfil legal requirements. For example, we store it according to bookkeeping regulations. This processing is based on legal obligations under applicable law. Please see the sections titled [Legal Obligation](#) and [Legal Disclosures](#) for more information about our legal requirements.

**Communications**

*Necessary Communications*

We make every attempt to only use the minimum amount of Personal Information necessary for performing these tasks and in many cases, such as product improvement, we only use information that has been de-identified, aggregated, anonymized, or pseudonymized.

**External Use**

We use Personal Information to enforce the End User License Agreement (“EULA”); work with your dealer to order and provide Products and customizations; and enable clinics and health service providers to track and service their fleet of Permobil Products, when location services have been activated. This processing is based on Permobil's legitimate interest purposes, our contract with you, or your explicit consent and use of My Permobil services.

**Your Right to Lodge Complaints**

You always have the right to lodge a complaint with the relevant supervisory authority where you live, work or where an alleged infringement of the GDPR has occurred. You can find the relevant authority in your country at the following link: [http://ec.europa.eu/justice/article-29/structure/data-protection-authorities/index_en.htm](http://ec.europa.eu/justice/article-29/structure/data-protection-authorities/index_en.htm).

**United States**

As a medical device manufacturer, Permobil may act as a health care provider when determining the proper type or size of the device that is needed for a particular patient. For more information about our HIPAA related practices, please contact us at: privacy@permobil.com.
Current privacy laws in the US are sectoral and state based. Because of this, describing our privacy practices for each state or sector would be cumbersome for you to read and we want to ensure that you can find the information you need to make decisions about your Personal Information. For this reason, we are describing our practices in only a few of the states where we do business. Regardless, we will treat all Personal Information according to all sectoral and state specific privacy laws and practices that apply to our business. For more information, please contact us.

CCPA permits California residents to certain privacy rights as they relate to the collection, security, quality, access, use and disclosure of your Personal Information.

We will not discriminate against you for exercising any of your rights under CCPA, including:

- Denying goods or services.
- Charging different prices or rates for goods or services, including through granting discounts or other benefits, or imposing penalties.
- Providing a different level or quality of goods or services.
- Suggesting that you may receive a different price or rate for goods or services or a different level or quality of goods or services.

Your CCPA Defined Personal Information

To learn about the categories of information we collect, please see "What Information Do We Collect About You" above. You have the right to request that we disclose what Personal Information we collect, use, disclose and sell including categories of Personal Information collected, categories of sources and third parties, our purposes, and specific pieces of Personal Information we collected about you.

You have the right to request that we delete any of your Personal Information that we collected from you and retained, subject to certain exceptions such as completing transactions, security reasons, legal compliance and other internal lawful uses.

You may only make a verifiable consumer request for access or data portability twice within a 12-month period. To make a request, you must provide enough information to allow us to reasonably verify that you are the person about whom we collected Personal Information or that you are an authorized representative.

We will respond to your request within forty-five (45) days of when we receive it. If we require more time (up to 90 days), we will inform you of the reason and extension period in writing. We will deliver our written response by mail or electronically, at your option.

*Selling CCPA Defined Personal Information*

We do not and will not sell your Personal Information to third parties. If we change that practice in the future, we will update our privacy policy and provide an opt-out link pursuant to the CCPA. We will treat any information that we collected prior such a change as though you opted-out of the sale of your Personal Information

California Civil Code Section 1798.83 permits California residents to request certain information regarding our disclosure of Personal Information to third parties for their direct marketing purposes. To make such a request, please contact us at: privacy@permobil.com.

*Tracking Signals*

California law requires that we disclose how Permobil responds to web browser “Do Not Track” signals or other mechanisms that provide consumers the ability to exercise choice regarding the collection of personally identifiable information (as that term is defined in California law) about a consumer’s online activities. Our Products do not currently support “Do Not Track” codes. That is, Permobil does not currently respond to or take any action regarding “Do Not Track” requests.
